

LEDSON Scene Light 24W

INSTALLATION INSTRUCTIONS

Preliminary Steps

1. Read the instructions carefully and study diagrams before installing the light
2. Check with state and local authorities for laws governing usage and proper mounting
3. Disconnect ground connection from battery (marked “-”) to avoid accidental short circuits before attempting to connect electrical wires
4. Route new wires along existing wiring, use tape if necessary
5. When running wires through the firewall, keep them away from moving parts

Mounting Lights

1. Drill 7 mm holes for screw placement on the surface where you would like to fix the light
2. Use the bolt to fasten the light, add the locking washer and tighten the bolt
3. The rubber block can be added to change the mounting angle according to the installation height
4. Wiring:

Red: “+” / Black: “-”

Warning:

1. Works under the specified voltage (DC9-36V)
2. This light becomes hot under continuous use. Don't remove or touch the casing for at least 30 minutes after turning the lamp off
3. Keep heat-sink clean and exposed to maintain air flow
